

This listing of claims replaces all prior versions, and listings, of claims in this application.

Listing of Claims:

1. (Original) A system for monitoring the geographical location of individuals within a geographical region from a remote location, comprising:
 - (a) at least one wireless communications device having a transmitter for transmitting control signals;
 - (b) a plurality of receivers located across a geographical region for detecting control signals transmitted by wireless communications devices;
 - (c) a location processor for determining location information corresponding to at least one wireless communications device according to the control signals detected by the plurality of receivers; and
 - (d) an Internet server for providing location determined in the location processor pertaining to at least one wireless communications device to authorized users through the Internet.

2-25. Cancelled
